

Introducing The Grease Gator Conversion Drum

Convert any parts washer into an Aqueous Grease Gator Innovative Purifier System is inside the drum

Benefits:

- ✓ Don't use an offsite chemical manager when the Grease Gator "CHEMICAL MANAGER IN A DRUM" can reduce your parts washer operating and maintenance costs.
- ✓ Eliminate expensive fluid exchange and hazardous waste transport. Perform maintenance with a simple turn of a valve which takes minutes per week. Annual chemistry cost is only \$200/year.
- ✓ Retains investment in existing parts washer inventory. Reuse the sink, pump, light, & lid.
- ✓ No waste. Cleaning solution kept constantly clean extending solution life over 10X. Purged oil is ready for recycling or reuse.
- ✓ 57% more cleaning power than mineral spirits.
- ✓ Improve community air quality. Cuts VOC emissions 99.5% over mineral spirits.

Simple:

- ✓ Slide the sink and pump into the drum. The drain will automatically fit into the universal Grease Gator Purifier connector.
- ✓ Charge with included Grease Gator Aqueous Cleaning Solution.
- ✓ Allow heater to reach operating temperature of 110 degrees F.
- ✓ Clean with Grease Gator power consistently day after day, month after month.

Features:

- ✓ External wrap-around drum heater extends the heater life and accuracy by keeping heating element components outside of the solution.
- ✓ Digital timer option is available to control the heater at your schedule conserving power and saving money.
- ✓ Award winning technology: The Grease Gator has been recognized with two prestigious awards in 2005: the Chicago Innovation Award for Design and the Illinois Governor's Award for Pollution Reduction.

“ The Grease Gator cleans a thousand times better than anything we have used before and it cleans things we couldn't clean before. Nothing on the market that I have seen competes with this product with regard to how well it cleans, how fast it cleans, and how inexpensive it is to operate. ”

Terry Whitlock, Service Manager, Burger Chrysler Jeep, Terre Haute, IN
