"Workers generally use parts cleaners without gloves so they are exposed directly to the chemicals."

<http://www.p2pays.org/ref/09/08447.pdf>

"Mineral spirits contain VOC's that may be toxic when inhaled."

Aqueous Parts Cleaning/
Best Environmental Practices for Auto Repair

"Inhalation is the most important route of exposure for solvents ... Most solvents affect the central nervous system, primarily the brain."

<http://lungusa.org/occupational/solvents.html>

There are a million reasons to stop using a solvent parts washer.

"The most important way of preventing exposure is substitution of a solvent with a less hazardous substance."

<http://www.p2pays.org/ref/01/00012.html>

And one reason provides a solution.

The innovative Aqueous Grease Gator.

Risk Free Trial Program available.

www.solvent-systems.com

The Aqueous Grease Gator:
Cleans 57% faster than mineral spirits.
Reduces VOCs by 99.5% over mineral spirits.
Eliminates the need for an outside service provider.
Non-hazardous, No smell.
Constantly clean solution with new purification technology.
Developed at a University of Illinois Engineering Lab.
Purged used oil ready and valuable for recycle.

"Aqueous Shows Its Teeth, The Grease Gator's Oil-Splitting Surfactants Help Achieve Pollution Prevention"
