Re: Grease Gator parts washer

Howie:

I wanted to take this opportunity to tell you how happy we are with the "Gator". When you and I first talked back in May, I told you my techs wanted to get away from the odor of mineral spirits. We had a trial of your parts washer and not only did it have no odor, but one of my technicians commented on the fact that your trial machine cut through grease better than mineral spirits. We were very pleased to see how well it cleaned a timing chain, one of the most difficult parts we have to clean. We now have had our leased machine for 6 months and are very pleased with its performance.

Sincerely,

Vinnie Emerich
