Re: Grease Gator aqueous parts washer

Dear Steve:

As the largest manufacturer of flexible automotive components in the world, Senior Automotive is committed to achieving excellence for the automotive industry. One of our goals was to reduce our VOC levels at all of our facilities. Our Bartlett, Illinois facility has been using your Grease Gator. It is working great and our people love it! The employees love the fact that this product does not smell bad like mineral spirits. They are amazed that your cleaning process is so easy on the hands with an improvement in cleaning power. This is truly impressive technology!

Mark Glawe
