

Here's a summary of the adhesive- and adhesive-related materials in inventory, aggregated by product.

Product	Type	Package	Quantity	Approx. Volume
Teroson PV4510	Structural adhesive	55-gal drums	18 drums	990 gal
Teroson PV1805	Structural adhesive	55-gal drums	16 drums	880 gal
Teroson PV4000F	Structural adhesive	55-gal drums	3 drums	165 gal
		5-gal pails	68 pails	340 gal
	Total PV4000F			505 gal
Teroson PV4010.9	Structural adhesive	55-gal drums	2 drums	110 gal
		5-gal pails	3 pails	15 gal
	Total PV4010.9			125 gal
Lord 5801S	Structural adhesive	55-gal drums	25 drums	1,375 gal
Betaseal 15700 Urethane Adhesive	Urethane windshield/structural adhesive	55-gal drums	4 drums	220 gal
Versilok 271	Acrylic structural adhesive	55-gal drums	2 drums	110 gal

Adhesive-Related Materials

Product	Function	Package	Quantity	Approx. Volume
Lord Accelerator 61	Adhesive accelerator/cure agent	55-gal drums	30 drums	1,650 gal
EXP Polyol NFLV-4-120	Polyol (polyurethane component)	55-gal drums	20 drums	1,100 gal
CoolTherm TC2002 A	Thermal interface material/component	55-gal drums	7 drums	385 gal

Totals

Finished Adhesives

- **70 × 55-gallon drums**
- **71 × 5-gallon pails**
- **Approximately 4,205 gallons**

Breakdown:

- 3,850 gallons in drums
- 355 gallons in pails

Adhesive Components (Polyols, Accelerators, Thermal Materials)

- **57 × 55-gallon drums**
- **Approximately 3,135 gallons**

1. **Lord 5801S** – High-value structural adhesive
2. **Teroson PV4510** – Automotive structural adhesive
3. **Betaseal 15700 Urethane Adhesive** – Strong demand from automotive glass and industrial users
4. **Teroson PV1805** – Structural bonding adhesive
5. **Teroson PV4000F** – Specialty adhesive, especially attractive due to the large quantity available
6. **Versilok 271** – Niche but valuable acrylic structural adhesive

7,340 gallons attractive to secondary-market buyers in automotive, transportation, and industrial assembly.
