

Offer Sheet

Product	Expired Peracetic Acid Sanitizer (AFCO Per-Ox F&V 4338)
Quantity	56 drums
Net weight	
Manufacture date	
Availability	One time
Location	Cambridge, OH
Date	7/28/26
COA & SDS	Attached below

Peracetic Acid / Hydrogen Peroxide Food Contact Sanitizer

Primary Chemistry

- Peracetic Acid (PAA)
 - Hydrogen Peroxide
 - Acetic Acid
 - Water
-

Potential Secondary Uses

Chemical Reblending

Manufacturers can evaluate remaining active ingredients and reformulate the material into lower-strength industrial sanitation products.

Industrial Wastewater Treatment

Suitable for facilities utilizing oxidizing chemistry for:

- Odor control
- Sulfide oxidation
- Biological treatment enhancement
- Industrial pretreatment

Industrial Sanitation

Can be utilized in non-food applications including:

- Equipment sanitation
- Mold remediation
- Cooling tower treatment
- General industrial disinfection

Chemical Manufacturing Feedstock

Can serve as a source of:

- Peracetic acid
- Hydrogen peroxide
- Acetic acid

for manufacturers that formulate specialty oxidation products.

Environmental Remediation

Potential applications include:

- Oxidation of reduced sulfur compounds
- Environmental treatment systems
- Industrial remediation projects

Pulp & Paper Processing

Some pulp and paper manufacturers utilize peroxide-based oxidizers for bleaching and process water treatment.

Highest Probability Buyers

- Chemical reproprocessors
 - Specialty chemical reblenders
 - Industrial wastewater treatment companies
 - Environmental remediation contractors
 - Industrial sanitation chemical manufacturers
 - Pulp & paper mills
 - Industrial oxidizer distributors
 - Toll blenders
-

Marketing Position

Industrial Peracetic Acid / Hydrogen Peroxide Oxidizer

Available for:

- Chemical Reblending
- Industrial Oxidation
- Wastewater Treatment
- Chemical Manufacturing
- Environmental Applications
